good fat grades.

Sam Stewart, Medicine Lodge, had two cars of mixed stock on yesterday's market. C. Keiley marketed cattle. J. H. Sparks, Conway Springs, was on

yesterday's market with a car of cattle and W. G. Arnett, Anthony, one car hogs. B. B. Hammers, of J. T. Hammers & Son, Clearwater, was in with a car of cat-

C. T. Barton, of Jones & Barton, Hesston, was at the yards with a car of hogs. J. L. Shriver, Elbring, Kan., was in with a car of fat hogs. This is Mr. S.'s first shipment to this market. He says he can not afford to ship to any other market when he can get such prices as he obtained here yesterday. And so it is our market is gaining new shippers and new friends Mr. Shriver has not been in the city for twelve years and says he used to herd cattle where some of our best buildings now stand and it seems impossible

for such improvements to be made within D. M. Williamson, Attica, had hogs on yesterday's market. Friend Bros., Cicero, sent in a car of

mixed stock. Paugh Bros., Sedgwick, were in with hogs. J. B. Shough, El Dorado, came in with a

nar of good hogs.

Two trains daily to St. Louis ands il points east. Ticket office 187 North Main street. Depot corner Second and Wichits street. E. E. BLECKLEY.

NEW YORK'S NEW MUSIC HALL

A Splendid Structure Which Will Cool More Than \$1,000,000. New York is to have a great concert hall. Ine plans for this gigantic building were filed recently in the building bureau, and the pre-liminary work has been commenced under direction of the architects. The contract salls for the completion of the building by Dec. 1, 1880. It is the intention of the pulling by Dec. 1, 1880. It is the intention of those in-crested to make this concert half one of the finest in the world. If the present plans are narried out it will certainly fulfill the expec-

tations of the builders. This building is not to be a concert ball with stage appliances of a theatre. It will not have a drop curtain. The stage will be a permanent architectural feature, just as much as the walls or ceiling. The whole interior will be so arranged as to be a sort of immense sounding board. The acoustic properties of the building will be as acoustic properties of the building will be as nearly perfect as can be made. The decora-tions will be simple, yet elaborate. The elec-tric lighting will be so arranged as to give equal distribution in all parts of the bouss. The boxes in the interior are to be ar-ranged in a nevel way. The first tier will be entirely open, each having a separate ante-room with a private entrance. This tier will extend all around the house. The second tier

room with a private entrance. This tier will extend all around the house. The second tier will be partially closed, with small partitions toward the front. It will go only partially around, receding slightly from the first tier. The two balconies beyond recede in the same way. The effect is to give the whole an open, roomy appearance, in contrast with the stuffy effect of buxes piled directly on top of one The corridor, which will run entirely around the house, will have eleven exits. The staircases will be made to slope, so as to make ascent an easy matter. Clock rooms and totlet rooms will be in all parts of the

and tothet rooms will be in all parts of the house. A large imaquet hall, capable of mat-ing one thousand people, will be situated under the auditorium.

In the upper part of the building will be several large rooms for choruses, solohis and conductors, and over the hall a chapter room. Pirectly over the stage will be a gymassium, and artists' studies will occupy the

space under the roof.

The building will cost something over \$1,-000,000. The materials used on the exterior. will be Aberdeen granite, terra costs brick and iron. It will be absolutely fireproof. The building will be situated at Fifty seventh street and Seventh avenue, and will have a frontage of 150 feet and will extend 176 feet in the rear. There will be entrances on wenth avenue, Fifty-sixth street and Fifty

seventh street

Behind the Times. We fear that Dr. Stevens, of Philadelphia, has been imposed upon. He tells us that he has discovered the location of the human soul; that it is situated in the corpus callosum. We are constrained to think the doctor has been exploring in some old-fushioned cadaver, for we are assured by many authorities in the social world that it is no longer deemed good form to wear souls in the corpus callosum. Indeed, the most fashionable people, we are told, have discarded the practice of wearing souls at all; it is so bothersome to look after a soul and a pug dog at one and the same time.—Washington Post.

Look at Your Fingers. Fingers which are smooth denote a tendency to act upon instinct, impulse or intuition, rather than by reason, calculation or deduction. Knotty fingers denote a tendency to order and arrange ment. People with short fingers are quicker, more impulsive, act more on the spur of the moment than people with long fingers. If the fingers are very
